

RESTAURANT CUSTOMER PAGING

Microframe's Wireless Visual Paging silently pages customers to the pickup counter when their food is ready. When the food is ready, an employee simply enters the order number on the transmitter, and it instantly displays on the LED screen.

**WIRELESS
VISUAL PAGING**
\$748 - \$848

**WIRED
VISUAL PAGING**
\$468 - \$538

One of Microframe's tried-and-true visual paging solutions. The handheld keypad is wired to the display and is used to one or multiple order numbers on the screen. Available in single, 3x4 and 6x2 number sets.

WI-Fi displays are operated from a free app, available on Apple and Android app stores. Use any smart device to instantly update order numbers.

**WI-FI
VISUAL PAGING**
\$229 - \$619

WHY YOU NEED IT

Silently notify customers when their food is ready
Eliminate loud disturbances from PA systems

Reduce foot traffic near the food pickup area
Increase efficiency and reduce service times
